

LESSON 23

TEXAS ALMANAC TEACHERS GUIDE

Counties and County Seats

- *History*
- *Courthouses*
- *Statistics*

INSTRUCTIONAL SUGGESTIONS

- 1. COUNTY RESEARCH PROJECT:** Each student will be assigned a separate Texas county to research. This research should include:

- **founding of the county**
- **for whom or what was the county named**
- **the county seat**
- **the building of the county courthouse(s)**
- **recent statistical data**

The research will begin in the Texas Almanac with the entry for the specific county. The research also should include information contained on the following Internet websites:

Handbook of Texas Online: <http://www.tshaonline.org/handbook/online>

Texas Courthouse Trail: <http://www.texascourthouse-trail.com/menu.htm>

Texas Courthouses: http://www.texasescapes.com/Texas_architecture/TexasCourthouses.htm

- 2. COUNTY SEAT DATA SHEET:** Students should use the **County and County Seat Data Sheet** as a guide as they research and collect information on their assigned county.

This form may be used as the final product, or the students may use this information to create written or computer-generated presentations.

Encourage students to collect **pictures of the courthouses** for the county. To generate interest and to encourage comparisons, the teacher may wish to display a poster of all 254 courthouses, available through TAMU
